To whom it may concern,

I have utilised the service of On-Site Recruitment Solutions Ltd and Will Spong since September, 2010 on my project at Pitshill, West Sussex.

Will has supplied a gateman, general labourers, carpenters and plasterers on the project in this period and we have not had an issue with any of the labour supplied.

Being one of Kier's approved agencies I know they adhere to stringent recruitment procedures in the selection of operatives for work and all temps supplied have had their own safety wear and a CSCS card before they arrive for induction.

Will is also our one point of contact so he understands our requirements accurately and he is always honest and professional in his approach and communications with us.

I would have no hesitation in recommending On-Site and Will Spong to any company looking for a temporary labour and trades solution on their projects.

Yours Sincerely
