

15th December, 2011

To whom it may concern,

We have utilised the labour and trades supplying service of On-Site Recruitment, and specifically Will Spong, since July, 2009 on various projects across Hampshire.

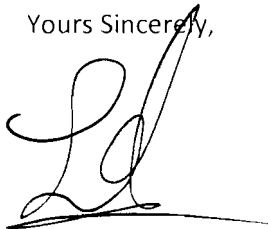

Will Spong has supplied General Labourers, Painters, Carpenters, Bricklayers and Handymen in this time and particularly in our busiest periods in the summer this has been our first port of call when we require additional labour or trades on our projects.

We have confidence in Will Spong and that all On-Site operatives supplied to our jobs would have been stringently vetted and would arrive with their own safety wear, and if necessary, their own tools.

Will Spong is always honest and professional in his approach and is always contactable and makes an effort to liaise continuously with our site teams to ensure labour or trades supplied are working as required and that his temps are ok in their duties.

We would have no hesitation in recommending the service of Will Spong and On-Site Recruitment to other companies looking for a temporary labour and trades solution.

Yours Sincerely,

Lee Shirley
Contracts Manager
