

July, 2016

Dear Sir/Madam,

I can confirm that The On-Site Group Ltd have supplied temporary operatives to our Sheffield-based Streets Ahead project since October, 2013.

They have formed an integral part of our supply chain framework and have passed several audits from our vendor neutral – which is testament to their diligence and accuracy in their recruitment conduct and provides us with confidence that all operatives supplied will not only be suitable for their role, but will be compliant with legislation.

The On-Site Group's consistent communication, mainly from Will Spong, Ant Hampshaw and Lisa Norton, is also an asset and allows us as the client to always be abreast of our temporary labour usage, therefore minimising costs in a competitive market.

We would have no hesitation in recommending The On-Site Group to any organisation looking for a cost effective, yet efficient and diligent labour provision service.

Yours Sincerely,

A handwritten signature in black ink, appearing to read "LAC" followed by a long horizontal line and a small flourish at the end.

Lynsey Connelly

Operations Manager
