January 2018

Dear Sirs,

Antony Hampshaw of On-Site Recruitment Solutions has supplied Skilled Tradesmen, Supervisory Staff and Labourers to the ATJ Group since 2014. Antony has always been my first port of call for all labour requirements across the South Coast, up the M4 corridor, and in Central London also. Antony has been in the Construction Recruitment business for many, many years and this experience sets him apart from his competition in that he has a genuine understanding of not only his own business, but mine also. Antony is always proactive with labour requirements, but more importantly he is realistic and maintains an open chain of communication with both the office and site. Please find below details of some notable projects Antony has supplied the AT Jones Group –

- *Moberly Leisure Centre London for Willmott Dixon* – Antony and his team supplied Labourers and Tape & Jointers to the AT Jones arm of our business for a duration of 20+ weeks.
- *Ocean Village Hotel Southampton for Bouygues* – Antony and his team supplied Labourers for 30+ weeks. In addition, a Site Supervisor was engaged through Antony in a very reactive manor to cover staff sickness, the individual was engaged for 3 weeks as planned.
- *Keble College Oxford for BAM* - Antony and his team supplied Labourers to the ATJ arm of the business, and Painters & Carpenters to the ATT arm of the business for 20+ weeks.
- *Village Hotel Portsmouth for Willmott Dixon* – Antony and his team supplied Labourers and a Ganger for the full duration of this project, 32 weeks.

The AT Jones Group would recommend the services of Antony Hampshaw and see him as an integral part of our project delivery.

Your Sincerely,

Liam Butt

Business Development and Resource Coordinator.

AT Jones and Son Limited.
